SKILLS

Writing

Time Management

Problem Solving

Critical Thinking

Adaptability

LANGUAGES

JAVA   C++   C

HTML   MySQL

Rest API   AWS

EDUCATION

B.Tech
Vellore Institution of Technology
07/2019 - Present   *8.63/10*
Course:
□ Computer Science

12th (Senior Secondary Examination)
Sir. Padampat Singhania Education Center
04/2017 - 04/2018   *83.4%*

10th (Secondary Examination)
Sir. Padampat Singhania Education Center
03/2015 - 03/2016   *8.2/10*

WORK EXPERIENCE

Java Developer Intern
Thrilleasy Private Limited
08/2021 - Present
Thrilleasy is fastest growing online booking platform for adventure tours and trips.

Tasks
□ Working on moving static website to dynamic by the help of Thymeleaf spring boot

TRAININGS

Advanced Algorithms and Complexity (03/2020 - 04/2020)
Link: coursera.org/verify/2SVPHLZYGA7Y

Data Analytica And Predictive Technologies by I-DAPT, IIT BHU (07/2021 - 08/2021)
Link: https://drive.google.com/file/d/1uVKsSmNn3YWY41XsWk-n2dDoGdZ5rA0d/view?usp=sharing

PERSONAL & ACADEMIC PROJECTS

Hospital Management System (Database Management System, 3rd Semester) (07/2020 - 10/2020)
□ Made Hospital Management System by the help of JAVA J-frames for frontend and backend.
□ Here I was responsible for making backend which I did using MySQL (for storing data of patients and employees) and JAVA (for decision making like: correct password or not, inserting data, deleting, updating etc.
□ Link : https://github.com/shivam11305/Hospital_Management_System.git

Image Encryption (04/2021 - 05/2021)
□ Encryption project that encrypts the images by the help of blowfish algorithm.
□ We used JavaFx Platform to implement the same.
□ Link: https://github.com/shivam11305/Image_Encryption.git

E-Voting System by Blockchain (01/2021 - 03/2021)
□ Used Blockchain Smart Contract to make an election portal that allows the user to either vote to a party or he can organize an election if needed.
